

Alison

Congratulations Teresa & Alison!

These CCC employees have been working hard to earn their Bachelor's Degrees in Human Development and have just crossed the finish line! For Teresa & Alison, Head Start has made a difference...

"It was not easy keeping focused to do the required homework on top of working fulltime, family life, and just surviving. It was a challenge and at times seemed impossible but we did it, having the support from each other along the way. We both made the Dean's List each term earning 4.0's!

Paying for school was not easy to do. In addition to receiving financial aid, we also received assistance from Head Start so that we could complete our dream of earning our Degrees. We both have accomplished this by the support and encouragement of our co-workers, family, and friends along the way. Teresa and I would like to thank all of you!" ~ Alison
