

We are so grateful for the Head Start program and what it offers our family.

Being able to give my children a quality start to their educational experience along with valuable social learning is so important and without Head Start we wouldn't be able to afford to do so. It's also been great at preparing them to transition from all day at home to all day at school with ease.

As a military spouse I've found the Circle of Security Class to be extremely insightful, and helpful in building a more resilient family and stronger relationships with my family members. I feel more confident in leading and supporting our children through deployments and training periods. It's really helped me examine my parenting weaknesses, practice greater self-awareness and compassion, and be more present for my children exactly where and when they need me most.

I highly recommend it for every parent and grandparent! It will transform ALL of your relationships.
